No problem Geoff. Jay is planning to be on the call but, if for some reason he can't make it, I'm happy to provide an update.

Thanks Ardra and Jay.

Yes, I'll lead things off for the call today, but could I turn it over to one of you to discuss your conversation with WaterGen?

Geoff

Hi Ardra. These look really good. Thank you!

What I'll do tomorrow morning is touch these up – accept changes, and the like. I'll recirculate clean copies before the meeting tomorrow afternoon. Hopefully the rest of the group won't have any new edits so you can send these to Water Gen for their review and comment after the call.

Sarah will not be on the call tomorrow – she works 4-tens (off Fridays). Elise will be out as well, so Geoff Cooper will lead the meeting.

Have a good evening, all. - Laura

Meant to copy you, Sarah, on this and not Diana Bauer.

Laura and Geoff,

Attached, please find the CRADA document that includes responses to Laura's highlighted text with the exception of the cooperator's signature blocks. We'll need to circle back around with Water Gen to get that information. I've also included the latest (hopefully final) version of the SOW. Please feel free to contact me if you have questions or would like additional revisions.

Both Jay and I plan to be on the call tomorrow. Talk with you then.

That's great. Jay and Ardra. I'm assuming there will still be a call tomorrow (Elise Packard, who had been leading them, is out) but, either way, we can let everyone know that this, first CRADA will shortly be in the hands of the collaborator. Thanks, Geoff

Ardra will be sending the CRADA and SOW paperwork to you later this afternoon. We considered this "final" from the ORD side, and ready for input from the potential collaborators. I talked with the WaterGen CEO earlier this week. I reviewed our plans (i.e. What's in the SOW) with him, and expressed his strong interest in collaborating on the topics in the SOW.

Jay,

Has there been any progress on the AWG assessment CRADA timeline? Have you heard from WaterGen? We have another call scheduled for tomorrow with the Administrator's office, OW, and OLEM, where I'm sure those questions will come up. Sorry to keep pestering you about this?

Thanks,

Geoff
